## INSTALLATION GUIDE

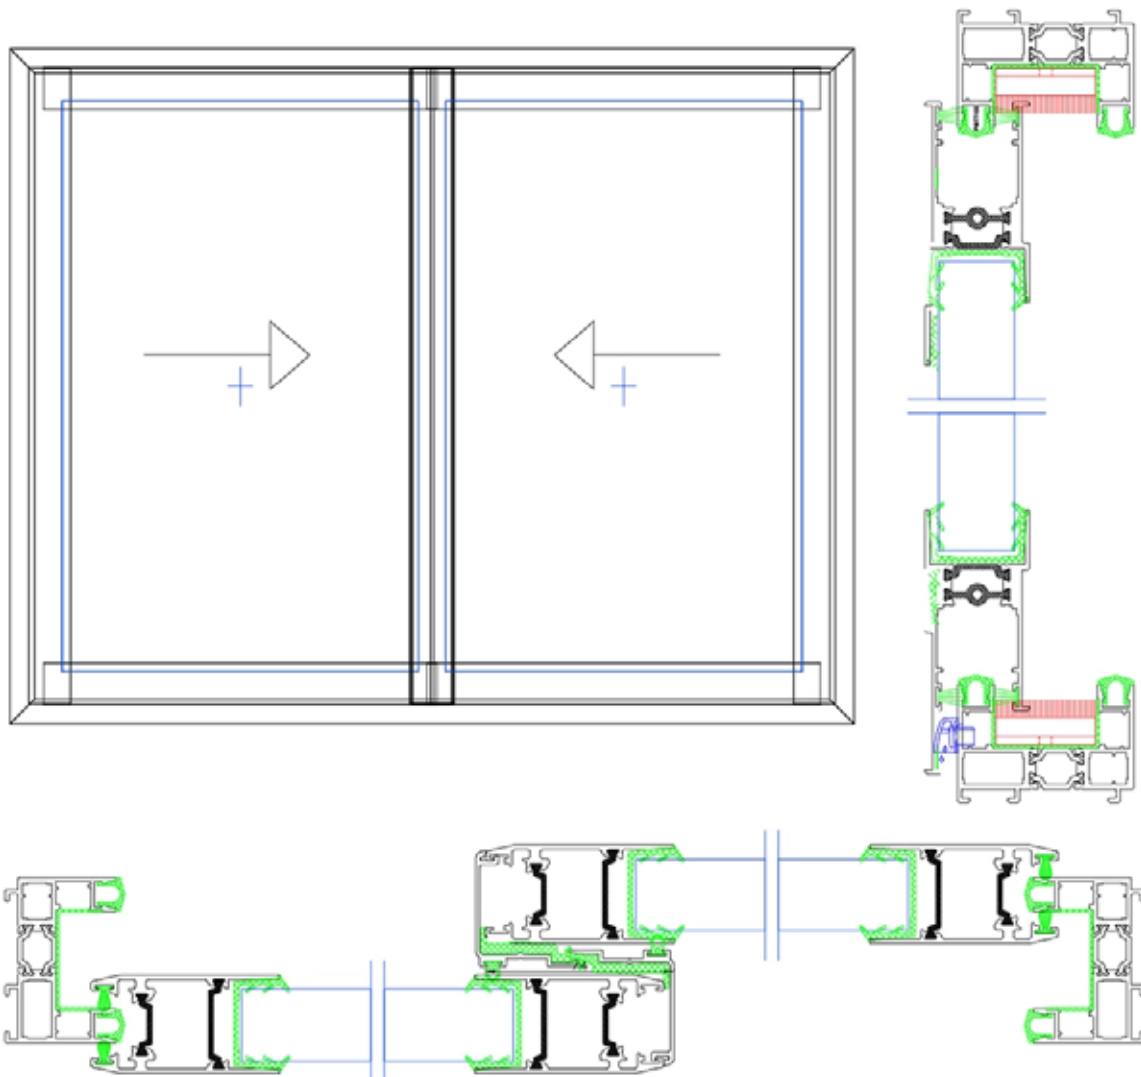

# SINGLE SLIDING MEDIUM DUTY SERVING WINDOW

## DESCRIPTION

Our Single Sliding Medium Duty Serving Window comes with both panes sliding by default however, we can make one fixed if specified. These windows can also be accompanied by a fire rated shutter for environments requiring a fire rated sliding window.

## DIMENSIONS

Min/Max Width	650mm / 2000mm
Max Height	650mm / 1600mm
Depth	65mm

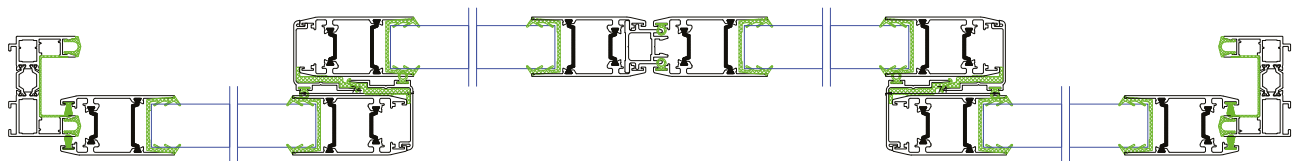

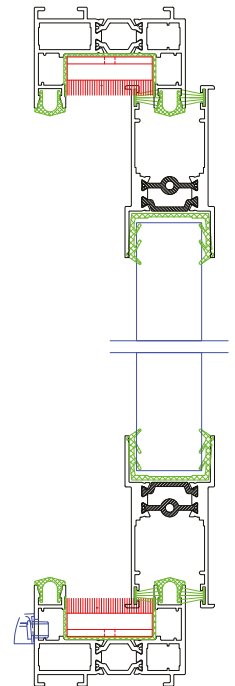

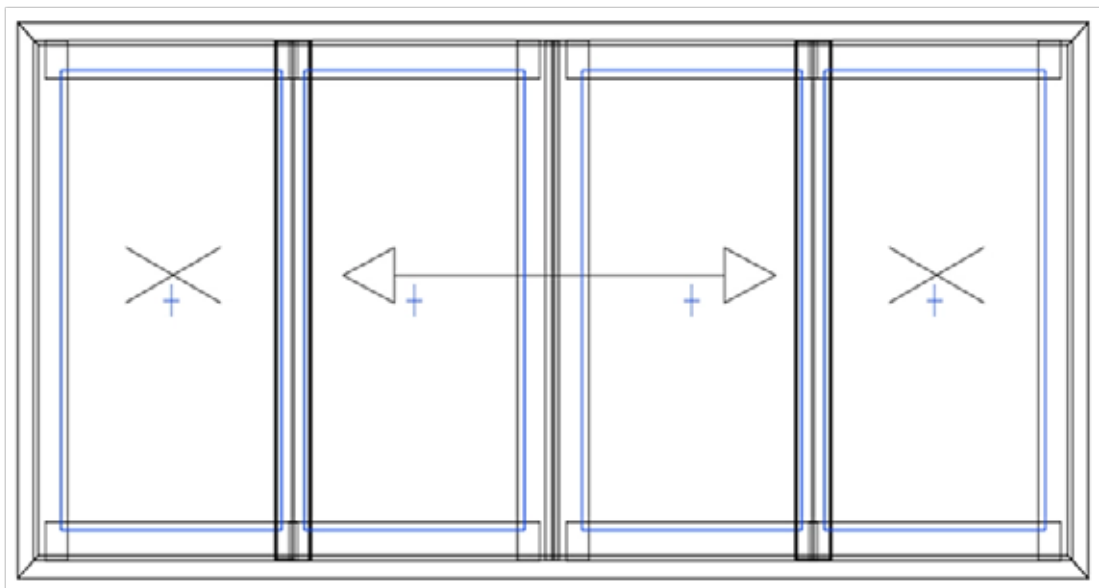

# BI-PARTING MEDIUM DUTY SERVING WINDOW

## DESCRIPTION

Our Medium Duty Bi-Parting Serving Window is the perfect solution for those wanting a wider opening. Featuring a four-pane configuration, with two fixed windows on either side and two central panes that slide apart in a smooth, bi-parting motion, they can be installed into a multitude of environments and provide great benefits.

## DIMENSIONS

Min/Max Width	800mm / 3000mm
Max Height	650mm / 1600mm
Depth	65mm

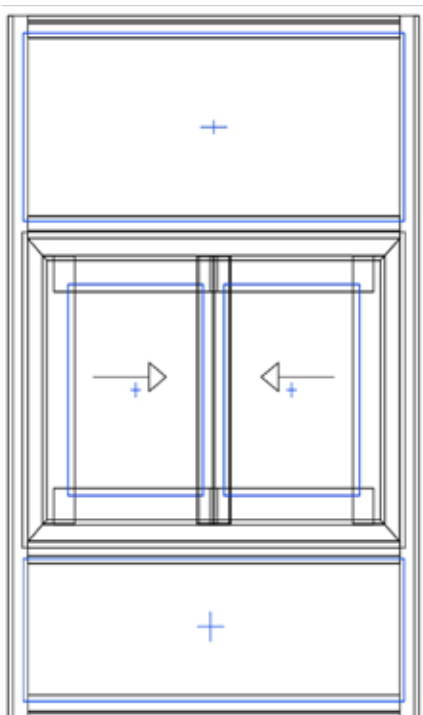

# PANELLED MEDIUM DUTY SERVING WINDOW

## DESCRIPTION

Our Medium Duty Serving Windows can have additional panels incorporated on either side to enhance both functionality and appearance. These panels are available as fully glazed options for a clean, modern look, or they can be made with solid timber cores for added strength. The timber panels can then be finished with acrylic sheets or aluminium sheets, providing a durable and customisable solution.
